Student Athlete Concussions and Head Injuries

Supersedes Procedure Issued

Page 1 of 1

The Superintendent or designee shall develop and implement a program to manage concussions and head injuries suffered by student athletes. The program shall:

1. Comply with the concussion protocols, policies, and by-laws of the Illinois High School Association, including its *Protocol for NFHS Concussion Playing Rules* and its *Return to Play Policy*. These specifically require that:
 - a. a student athlete who exhibits signs, symptoms, or behaviors consistent with a concussion in a practice or game shall be removed from participation or competition at that time;
 - b. a student athlete who has been removed from an interscholastic contest for a possible concussion or head injury may not return to that contest unless cleared to do so by a physician licensed to practice medicine in all its branches in Illinois or a certified athletic trainer; and
 - c. if not cleared to return to that contest, a student athlete may not return to play or practice until the student athlete has provided his or her school with written clearance from a physician licensed to practice medicine in all its branches in Illinois or a certified athletic trainer working in conjunction with a physician licensed to practice medicine in all its branches in Illinois.
2. Inform student athletes and their parents/guardians about this policy in the *Agreement to Participate* or other written instrument that a student athlete and his or her parent/guardians must sign before the student is allowed to participate in a practice or interscholastic competition.
3. Provide coaches and student athletes and their parents/guardians with educational materials from the Illinois High School Association regarding the nature and risk of concussions and head injuries, including the risks inherent in continuing to play after a concussion or head injury.
4. Include a requirement for staff members to notify the parent/guardian of a student who exhibits symptoms consistent with that of a concussion.
