

BE GREEN! EARN GREEN!
Three TerraCycle Brigades Help Earn Money for Washington School

What do you do with your **empty glue bottles and glue sticks**? How about **zipper bags and storage containers** once they have been used? And **drink pouches** like *Capri Sun* and *Honest Kids*? Don't throw them away they are worth money!

The *TerraCycle Brigade* is a program sponsored by the Washington Science Club that will **turn your trash into cash** to help our school, our community and the environment. *TerraCycle* will pay Washington School for every item we collect and then use this "garbage" to make something new and useful. You can BE GREEN and EARN GREEN at the same time!

We are asking all members of our community (students, families, friends and neighbors!!) to bring in **empty glue bottles, glue sticks, zipper storage bags and containers, and drink pouches (no juice boxes)**. Although *Elmer's*, *Ziploc*, *Capri Sun* & *Honest Kids* are the sponsors for these TerraCycle Brigades, **the items can be ANY BRAND.**

Collection of **these items** is already underway:

Glue Bottles

Glue Sticks

Storage Containers & Zipper Bags

Drink Pouches

HERE'S WHAT TO DO!

STUDENTS: Bring your empty *TerraCycle* items with you to school. Your classroom teacher will send a representative from your class each day to place them in the designated bins located in the cafeteria. Did you have a zipper bag or juice pouch **during lunch**? Don't throw them in the trash cans, put those in the bins, too!!

NON-STUDENTS: Bring your empty *TerraCycle* items to Washington School placing them in the designated bins located in the west side of the cafeteria.

To find out more about *TerraCycle* programs, visit <http://www.terracycle.net>.
