Be a State Farm® IT Intern

Software Developer

Design, develop, and test new or existing web based applications.

Skills needed:

- Web Development (JavaScript, CSS, HTML, Java, .NET, etc.)
- Mobile Development (Swift, Java, C++, iOS, Android, etc.)
- Big Data Development (AWS, Spark, Hadoop, etc.)
- Infrastructure (Bash, Puppet, Ansible, Ruby, Python, etc.)

Infrastructure Analyst

Address the day-to-day management and maintenance of services, systems and applications, while ensuring that the infrastructure is sufficiently robust, scalable and efficient to deliver the integrated services underlying the physical environment. May involve working with: Network, Mainframe, Open Systems, etc.

Requirements

- Must be a current or graduating high school student
- Must be at least 16 years old by the start date of the internship
- This is a 8 week paid internship
- Selected interns will work 38.75 hours/week
- Knowledge and experience with object oriented programming or other development skills strongly desired
