

BLOOMINGTON PUBLIC SCHOOLS

District 87

300 E. Monroe St. Bloomington, IL 61701
309-827-6031
www.district87.org

After careful consideration and consultation with local health officials, local pediatricians, parents, staff members, IDPH, Governor Pritzker, our school attorney, our risk management provider, and the CDC, the following safety mitigations are recommended throughout the 2021-22 school year. These mitigations are subject to change as new information becomes available from IDPH, the CDC or the Illinois State Board of Education. We will also monitor our community's Covid-19 metrics and make safety mitigation adjustments as necessary.

Vaccinations

- We strongly encourage all eligible individuals to get the Covid-19 vaccination.

Face Coverings

- The district will provide masks to any student in need

Buses

- Assigned seating on all school bus routes

Physical Distancing

- Physical distancing will be implemented to the extent possible within our classrooms and hallways.

Contact Tracing and Testing

- Will follow IDPH guidelines for isolation and quarantine

Cleaning and Disinfection

- Our Facilities Department is committed to ensuring all protocols for sanitation are in place
- Daily electrostatic disinfectant machine use in all classrooms and learning environments
- Touchless water fountain & bottle filling stations
- Hand sanitizer and wipes in all classrooms and learning environments
- Hand sanitizing stations throughout the buildings

According to the Illinois Department of Public Health, vaccinations are the leading public health prevention strategy to end the Covid-19 pandemic.
